About me

I am a full-stack developer skilled in frontend, backend, and Java. I have developed the many website and gained hands-on experience during my internship at Cyber Dairy Solutions. Passionate about creating impactful solutions, I'm eager to contribute to challenging projects.

PROJECTS

Mini projects

- ToDo List with drag and drop
- Digital Clock
- Portfolio Website
- Restful API for a Blog
- OpenWeather web app

Major projects

- Income Expense Tracker Website
- PMJSY Hospitals Website
- MyDiary Website
- IOET Gallery Website
- TechPathShala website

Experience

MERN Developer

Feb 2024- Dec 2024

CYBER DAIRY Solutions Pvt. Ltd.

During my internship at CyberDairy Solutions Pvt. Ltd., I gained practical experience in MERN stack development (MongoDB, Express.js, React.js, Node.js) and website design, creating responsive and user-focused interfaces. This role significantly enhanced my technical skills, time management, and teamwork, while also providing valuable exposure to real-world development challenges, troubleshooting, and innovative problem-solving in a dynamic, fast-paced professional environment. I also collaborated effectively with cross-functional teams to deliver high-quality results on time.
